

中華民國與約旦哈什米王國間科技合作備忘錄  
MEMORANDUM OF SCIENCE AND TECHNOLOGY COOPERATION  
BETWEEN THE REPUBLIC OF CHINA AND THE  
HASHEMITE KINGDOM OF JORDAN

七十八年七月二十四日簽訂  
七十八年七月二十四日生效

Signed on July 24, 1989  
Entered into force on July 24, 1989

The representatives of the Royal Scientific Society, the Hashemite Kingdom of Jordan and of the National Science Council, the Republic of China have agreed upon the following points :

1. Science and technology cooperation between researchers or research groups in the Hashemite Kingdom of Jordan and in the Republic of China will be encouraged by both institutions in all fields of scientific endeavor including humanities, social sciences, and engineering.
2. On the basis of their respective national laws and statutory rules, both institutions will support cooperative research activities in the forms of
  - joint research projects and
  - joint workshops, and in connection with these cooperation efforts,
  - the exchange of scientific personnel and of information on research results, national science policies and research promotion.
3. Travel expenses for the participants in cooperative research activities will be borne by the sending institution, the living allowances will be borne by the host institution which will also be responsible for appropriate health care insurance.
4. Cooperative research activities will be funded when both institutions will have received and reviewed positively the grant proposal ( s ), coordinated with the research group ( s ) in the other country, however, each institution may recommend candidates for cooperative research activities in order to help start or add to existing science cooperation.
5. Technical details regarding cooperative research activities will be discussed and decided by Royal Scientific Society and National Science Council on a case basis.
6. Royal Scientific Society and National Science Council will evaluate the development of the science and technology cooperation funded by both institution regularly, at least however, every third year.
